Please specify the type of the abstract

    Original research study

    Literature review

    Case report

    Policy and practice report

    Curriculum development

    Project proposal

Abstract (maximum 350 Words):

Process of abstract submission
Please send the completed form to the congress secretariat: migrant.health@ibe.med.uni-muenchen.de. You will receive confirmation of the abstract submission. After the review process, submitters will be notified of acceptance or rejection by email in September 2023.

For any query, please contact the organization committee: migrant.health@ibe.med.uni-muenchen.de

Abstract submission requirements
Abstracts should follow the introduction methods, results, conclusion structure. Project ideas should outline possibilities for collaboration, available resources, and expected outcomes. The main body of the abstract cannot be no longer than 350 words. Please minimize the use of abbreviations and do not cite references, figures and tables. The abstracts should meet international English language standards and will be published in the congress booklet exactly as they have been submitted. The submitting author will be designated as the primary and presenting author unless otherwise specified. The presenting author must be listed on the abstract.
